# GWC Italia Inc. Acquired by the Pietro Fiorentini Group.

Bakersfield -

## **Pietro Fiorentini Acquires GWC Italia**

GWC Italia, renowned for its expertise in Designing and Manufacturing ball valves for the upstream, mid stream, downstream, offshore, and onshore market segments in the Oil & Gas sector, has been acquired by Pietro Fiorentini. With a significant market presence, GWC Italia wholly owns GWC USA Inc., which has been operational since 1985 in Bakersfield, California.

This acquisition reinforces Pietro Fiorentini Group's position in the ball valves sector and expands its footprint in North America.

## **GWC Italia Rebrands to GWC USA**

Following the acquisition by Pietro Fiorentini Group in July 2024, GWC Italia has undergone a rebranding process, culminating in a new name: GWC USA. GWC USA manufactures Trunnion Ball Valves in Bolted Body design and Flanged Floating Ball Valves, all domestically in Bakersfield, CA.

This strategic rebranding marks the beginning of a new chapter, paving the way for future successes and growth.

## **About The Pietro Fiorentini Group**

The subsidiaries and brands within the Pietro Fiorentini Group further enhance our expertise across various industries, reinforcing our commitment to being a premier partner for our long-term stakeholders in the natural gas and oil sectors. The Pietro Fiorentini Group's extensive expertise spans renewable energy, data management, water cycle management, and waste valorization, allowing it to deliver specialized insights across multiple fields. The combined strength of the Group's diverse skills and technical proficiency uniquely positions Pietro Fiorentini to develop and industrialize cutting-edge solutions.
